

Peacock Tales

October 2018

Dear Friends,

I am working hard to get this out earlier than usual but time keeps flying.

Please plan to come to the open house on Friday and Saturday Nov. 2 & 3 but especially for the reception on Saturday 2-5pm when our artists will be here demonstrating their techniques.

Page two has an article showing new work by a few of our artists which we have available in the gallery.

And lastly, be sure to see the framing special is one of our favorites; 25% discount on Museum Glass.

Best,

Fred

Come Join the Fun at Our Fall Open House

We are holding our Holiday Open House again this year and hope you will join us Friday November 2nd and Saturday November 3rd 10am—5pm. We will have framing specials for orders placed during the open house and coupons for later orders, as well as specials on printing from our high quality Epson printer which we will be demonstrating during the open house.

The high point of the weekend event will be the gathering of our family of artists for a Saturday afternoon reception with artist demonstrations. **The party will be 2—5pm Saturday November 3, 2018** and I hope you can join us for snacks and refreshments of seasonal foods.

I will demonstrate our printing process and encourage you to bring in a picture you would like printed to watch how we do it. We will have specials on printing as well as framing during the reception on Saturday.

Fairey Shepard's Women's March Posters Should Be Enjoyed

When Fairey Shepard created the “Hope” poster in 2008 it was an instant hit and when he applied the same look to posters for the Women's march in 2017 they were again a hit.

I have high quality digital files of all three posters and want to make them available for friends but since they are copyrighted I can't charge for them so I will give one to you if you only pay for the framing. I'll have them available during our open house for you to see and acquire.

Some New Work by Our Family of Artists

We are starting to see some new work by the artists who are normally here at Prince George. New in the gallery by Patricia Rapoport is “Wandering Sheep” a whimsical look at Williamsburg and it’s sheep.

Wandering Sheep Patricia Rapoport

Rural James City County

Chuck Dubois

Chuck Dubois has a new watercolor called simply “Rural James City County” which is a tribute to the disappearing aspect of our local countryside. These scenes used to be just outside the city of Williamsburg but now we have to go further to find them.

Speaking of going further, Edwin Green has gone to Paris to paint scenes of the French capitol in it’s fall color. I told him in a recent email that I had never seen Paris so colorful.

The first two pictures in this article are in the gallery now and we expect Edwin’s in time for our holiday open house on Saturday, Nov. 3, 2018.

Arc de Triomphe

An Early Christmas Gift For You

Our early Christmas gift to you is a chance to use the best glass for a special price. Order Museum Glass for any framing project (up to 40X60”) and get it for 25% discount.

Museum Glass is a wonderful product that enhances nearly anything you can put behind it. It is clearer than regular glass because it is nearly lead free, it has anti-reflective coating on the front to remove 91% of distracting reflections, and ultraviolet filtration on the inside to block 99% of damaging UV light. That is the technical description of the material but what it means is that the details and colors will be very visible while being protected from light damage.

When you are next in, look at the display sample and if you want to try it our special discount of 25% (until November 30th) will make it more affordable. I just need to warn you that you will like it so much you will want to use it on everything.
